### PROFESSIONAL EXPERIENCE

#### Remi AI | Lead Frontend Software Engineer

2026 - Present

Remote

- Lead frontend architecture and development of an AI-powered collaborative workspace using React and TypeScript, owning key technical decisions from product requirements through production.
- Build reusable UI foundations and partner with Product, Design, and Backend teams to turn complex AI, documents, media, and data workflows into clear user experiences.

#### Konvo GmbH | Frontend Software Engineer

2025 - 2026

Berlin, Germany

- Led the frontend rebuild of the platform from scratch using Vue and TypeScript, creating a more scalable and maintainable frontend architecture.
- Shipped a complex, business-critical feature** with zero production regressions.

#### Cileria GmbH | Full-Stack Developer

2024 - 2025

Berlin, Germany

- Built and optimized scalable applications** using TypeScript, React, and Node.js, reducing application load times by 25%.
- Developed user-focused prototypes to accelerate product validation and translate client requirements into practical technical solutions.

#### Cripto Ecosystem | Full-Stack Developer & Product Designer

2020 - 2024

LATAM

- Owned product design and full-stack development from user research and prototyping through implementation and delivery.
- Optimized product and development workflows**, reducing turnaround time by 20%.

#### Skyscanner | Frontend Developer

2018 - 2019

United Kingdom

- Improved frontend performance** and reduced load times by 30% through code, resource, and rendering optimizations.
- Collaborated with Design and Backend teams to deliver responsive interfaces and seamless frontend integrations.

#### Freelance & Studios | Web Developer

2012 - 2020

Latin America & Europe

- Delivered 50+ client web projects** from discovery and prototyping through development, launch, and ongoing maintenance.
- Built content-heavy blogs and websites for tourism and hospitality clients, including hotels, restaurants, and travel businesses, with a strong focus on responsive UX, SEO, and practical content management.
- Worked directly with clients and small businesses to translate commercial goals into effective digital products across different brands, audiences, and technical constraints.

## SELECTED PROJECTS

**The Berlin Around** | Astro · MDX · SEO · Content Architecture

**Production-grade Berlin travel publishing platform built and managed as a professional digital product.** Designed the end-to-end technical and editorial architecture, including scalable content collections, structured metadata, category/tag modeling, SEO and internal linking, multilingual foundations, editorial governance, quality controls, performance standards, and a maintainable publishing workflow.

**Descubre Balcanes** | Astro · Tailwind CSS · SEO · Performance

Travel platform designed around content discovery, organic search, fast delivery, and conversion-focused UX.

**Fliplingua** | React · Mobile-first · Learning UX

Language-learning flashcard application with interactive study flows and a mobile-first interface.

**River Plate Berlin** | Astro · Tailwind CSS · UX · Content

Content-driven community website balancing brand identity, clear information architecture, and responsive delivery.

**Codinify** | Developer Tool · Keyboard UX

Developer-focused typing and coding practice app built around speed, accuracy, and keyboard-first interaction.

**Workout App** | Product UX · Responsive UI

Personal training app that turns practical dumbbell and bodyweight workout constraints into simple exercise planning.

**Macondo** | Writing App · Product UX

Minimal daily writing workflow focused on habit-building, idea capture, and creative continuity.

## EDUCATION

**Full-Stack Software Development**, DCI Digital Career Institute GmbH, Berlin, 2024

**BS in Business Administration**, Universidad Nacional de Lujan, Argentina, 2009
